

Heavy-Duty Tripod Base Mic Stand

MS9700B+ / 11655

Features and Benefits

This heavy-duty Platinum Series stand is built for truly professional use. Heavily built, it features a zinc diecast leg housing and clutch, a .625"-27 solid threaded upper shaft, and a scratch-resistant finish. A new ergonomic center clutch grip, coupled with an anti-rotating device on the lower shaft, makes for easy one-hand height adjustments. Allen nuts and bolts in the leg housing allow for tension adjustments.

Specifications

Height: 36"-64"
