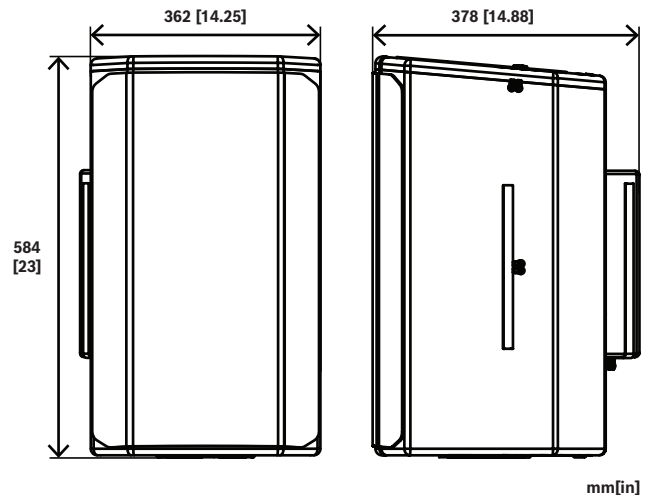

Fig. 1: Dimensions

IP rating

The EVERSE 12 loudspeaker with the rain cover installed is rated for IP44, but only in upright and kickback orientations, and only when used properly as defined in the included Quick user guide. When using the rain cover, the weatherized input cover is optional to achieve the IP44 rating.

Weatherization

When the rain cover is installed, the EVERSE 12 loudspeaker is designed to be weather resistant to IP44 standards, but not waterproof.

The EVERSE 12 loudspeaker with rain cover installed is intended only for temporary use in wet or damp environments. The loudspeaker is not intended to be exposed continuously to moisture over long periods of time. Do not expose to salt water or spray, do not expose to chlorine or use in high chlorine environments.
