

PROCAT5e

SKU: PROCAT5E

Ultra Flexible Shielded Tactical CAT5e

Our PROCAT5e cables are professional touring grade cables with an exceptionally durable and flexible construction.

Ideal for touring and mission critical applications. Handles and coils like a microphone cable.

Connector Options

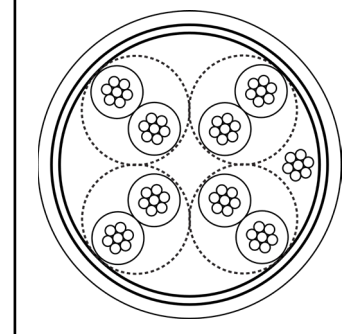

NEUTRIK® etherCON

Booted RJ45

CS45 Converta-Shell

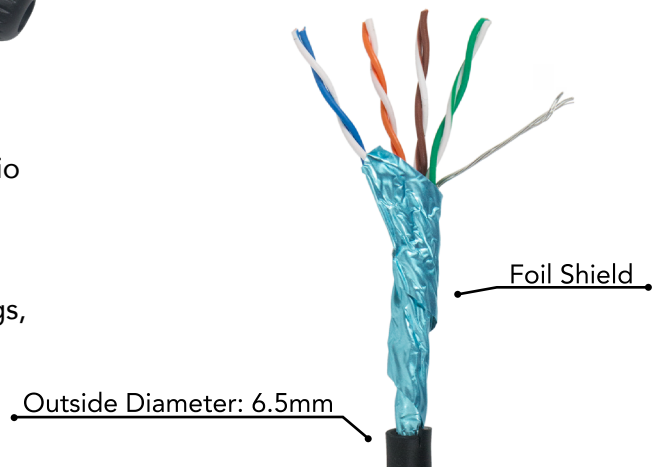

Technical Drawing

Main Features

- Foil shield protects against electromagnetic and radio frequency interference.
- Extra flexible, has no memory, lays flat, and coils comfortably.
- Durable PVC jacket provides protection against snags, tears, and abrasions.

Technical Specs

Conductor (Stranded Copper Core): 7 x 0.20mm	Insulation Tensile Strength: ≥ 10.0 MPa	Jacket Swing Test: ≥ 2000
DC Resistance: 86.44 Ω /km	Insulation Swing Test: ≥ 2000	Jacket Elongation: $\geq 100\%$
Capacitance: 54.0 pF/m	Insulation Elongation: $\geq 150\%$	Jacket Material: PVC
Character Impedance: 100 Ω	Insulation Material: Polyethylene	Jacket Diameter: 6.5mm (± 0.20 mm)
Rated Temperature Voltage (V/DC): 30°C	Insulation Diameter: 0.99mm (± 0.05 mm)	Jacket Thickness: 1.18mm (± 0.15 mm)
Withstand Voltage: 0.5mA	Insulation Thickness: 0.2mm (± 0.05 mm)	-
Drain Wire: 7 x 0.20mm	Jacket Tensile Strength: ≥ 8.0 MPa	-
